Re: TID Well Operations

At the TID Special Board meeting held on Tuesday, August 31, 2021 the Board discussed TID Well operations and the previously set tentative shutdown date of the District Wells. The Board decided to extend well operations slightly, and has set Friday, October 1, 2021 as the planned shutdown date for the District Wells.

TID will make every effort to fulfill water orders for those who still have remaining TID Well Allocation (0.5 AF/AC) through the planned shutdown date of Friday, October 1, 2021. As the shutdown date approaches, please be mindful that the Board-set policy for irrigation duration is limited to no more than 6 days (and/or up to 3 inches per acre) per irrigation unless otherwise approved under extenuating circumstances by TID management. Additionally, advanced water orders may only be placed up to 4 days in advance of the desired start date.

Please visit our website www.tulelakeid.com for information and policies for the 2021 irrigation season.

Sincerely,

Brad C. Kirby
Manager
Tulelake Irrigation District
